DRUG TESTING

Revised Drug Testing Rules 2014

ATTENTION ALL HORSE COMPETITORS

THIS SHOW IS A MEMBER OF THE CENTRAL NORTHERN GROUP OF SHOW SOCIETIES AND THIS GROUP UNDERTAKES A HORSE DRUG TESTING PROGRAM THAT HAS BEEN IMPLEMENTED SINCE THE COMMENCEMENT OF GROUP SHOWS IN 1991.

IT IS **YOUR** RESPONSIBILITY TO KNOW THE RULES AND REGULATIONS REGARDING THIS DRUG TESTING PROGRAM AND THIS SHOW OR THIS GROUP WILL NOT IN ANY WAY ACCEPT RESPONSIBILITY FOR YOUR LACK OF KNOWLEDGE AND/OR UNDERSTANDING OF THIS SUBJECT.

IT IS A CONDITION OF ENTRY AT THIS SHOW THAT ALL HORSES COMPETING AT THIS SHOW, COMPETE ON THE UNDERSTANDING THAT DRUG TESTING MAY BE CARRIED OUT AT THIS SHOW AND IF DRUGS ARE DETECTED THEN PENALTIES WILL APPLY.

PROHIBITED DRUGS

It is the intention of these regulations that all animals shall perform on their merits without the aid of drugs which will affect the conduct, performance, or appearance of the animal.

An exhibitor shall **NOT** administer and shall ensure that there shall **NOT** be administered to his/her exhibit any drug or substance herein called a "prohibited drug".

Prohibited drugs are substances originating externally whether or not they are endogenous to the animal and means any substance capable of affecting the performance or behavior of an animal by its action upon the central or peripheral nervous system, the cardiovascular system, the respiratory system, the alimentary digestive system, the muscular-skeletal system or the urogenital system and shall include analgesics, anti-histamines, anti-inflammatory agents, blood coagulants, diuretics, hormones, and their synthetic counterparts, cortico-steroids, anabolic steroids, local anesthetics, muscle relaxants, tranquilizers, and vitamins.

The use of antibiotic substances (anti-viral, anti-microbial, anti-parasitic) with the exception of Procaine Penicillin may be permitted.

In the Case of Showjumping and Dressage entries ONLY, which are conducted under FEI Rules, the use of Phenylbutazone and Oxyphenylbutazone is permitted provided the maximum level of either or both does not exceed 2 micrograms per millilitre of plasma, in aggregate, at the time at which the exhibit is to be judged.

The Society (or Group) may at its discretion cause an examination to be made of an exhibit by a Veterinary Officer who in the course of such examination may make by such methods as he may determine such tests of and take such samples from such exhibit, as he deems necessary or advisable. The result of the examination shall be reported to the Group and the Society.

An exhibit to which, in the opinion of a Veterinary Officer, a prohibited Drug has been administered shall not be exhibited without the consent of the Group and shall be removed from the showground forthwith upon notice from the Group or Society.

The Group may at its sole discretion impose the penalties applicable in the light of all information made available and may disallow or cancel the entry and any award made to the exhibit, without in such case being called upon to give reason therefore.

The owner or any other person who was in charge of the animal to which a prohibited drug has been administered will be disqualified and penalties shall apply.

Where samples have been taken from an exhibit by a Veterinary Officer and submitted for laboratory testing, the following rules will apply:

(a) If the A sample has returned a positive result indicating the presence in the exhibit of a banned substance, then the competitor will be immediately suspended from competition.

(b) The competitor will be entitled at the expense of the competitor to have a B sample tested at the laboratory provided that the competitor gives notice in writing within 10 days of being notified of the result of the testing of the A sample and provides with his notice payment for the cost of the testing of the B sample.

(c) If the B sample produces a positive result, then the disqualification provisions of these rules shall apply.

(d) If no B sample is tested in accordance with these rules, then the disqualification provision of these rules will apply.

THE PENALTIES TO APPLY SHALL BE 12 months' disqualification from exhibiting within this Group for the animal and the person in charge of the animal. It will be recommended to the ASC that these penalties shall apply on a state-wide level and that disqualification should be state-wide.

If the animal is not presented for examination within the time specified by the Group, then the same penalties shall apply as if a Prohibited Drug was detected.

TREATMENT FORMS WILL **NOT** BE ACCEPTED.

Any person who at any time administers or causes to be administered for the purpose of affecting the performance of an animal in any event or class at the Show, any drug as defined previously or has in his/her possession any improper contrivance may be disqualified or otherwise penalised by the Group.

Particular attention will be paid to the detection of sedative and tranquiliser groups of drugs but analysis for all classes of prohibited substances will be included. The collection of samples inter alia will always involve taking urine and/or blood.

An examination may include an examination for desensitised limbs. Any animal found to have a limb or part of a limb desensitised by any means will be considered to have competed under the influence of a prohibited substance and penalised accordingly. The owner or his/her representative may be present during testing but shall not interfere in any way with the conduct of the test and will observe the instructions of the Veterinary Officer on duty.

The Society or Group and any servant or appointee of the Society or Group shall not be liable to the exhibitor, owner or other interested parties, for the death of, or for any injury, damage or infection which may be sustained by an exhibit occasioned by or arising out of any act or omission of any servant, agent or appointee of the Society or Group done or committed in the course of his/her examination whether due to the negligence of any such servant, agent or appointee or otherwise.

Exhibitors must abide by the directions of the Society or Group as to the procedures to be followed for the examination of their exhibit and failure to adhere to this direction shall incur the same penalties as if the prohibited drugs were detected.

It is recommended that all horses are vaccinated for Hendra Virus.

ACKNOWLEDGEMENT, RELEASE & INDEMNITY

a) acknowledges and agrees that the Exhibitor participates in any competition or event conducted during the Show wholly and solely at the Exhibitor's own risk of injury to his person or property; b) releases the Society and its servants and agents at the time of participation, from and against any and all liability for personal injury or damage to the exhibitor's property which the exhibitor may receive, sustain or incur directly or indirectly as a result of the negligence or alleged negligence of the Society and its servants or agents aforesaid resulting from or arising out of any accident or happening whilst the exhibitor is on the Society's Showground or elsewhere under the direct or indirect control of the Society, its servants or agents whether or not such accident or happening occurred whilst the exhibitor was participating in or competing in any event or competition and the exhibitor for himself, his executors, administrators and any person claiming through or under him indemnifies and holds the Society, its servants and agents aforesaid indemnified from and against all claims, demands, suits, actions, damages, costs and expenses which the exhibitor or any person engaged by the exhibitor might be entitled to make or bring against or which may become payable by the Society by reason of or arising from or out of directly or indirectly, any such accident or happening or by reason of any act or omission on the part of the exhibitor or of any person engaged by him whilst he is competing or attending to any exhibit entered by the exhibitor and the exhibitor further agrees that any act or omission on his part or on the part of any such person engaged by him found in any action against the Society to be negligent shall be deemed to be negligence for the purpose of any claim under the aforesaid indemnity.

Guidelines for Shows Regarding Johne's Disease

1. As of 3 November 2016, the Australian Johne's Disease Market Assurance Program for Cattle (Cattle MAP) has transitioned to Johne's Beef Assurance Score (J-BAS). The scoring system is from 0 to 8 (0 being 'Unmanaged risk', 8 being 'High assurance'). There is also a Dairy Score with a similar range of scores that have been designed to line up directly (ie Dairy Score of 6 is equivalent to a JD risk of J-BAS 6). Although the J-BAS system is voluntary, the Dorrigo Show requires cattle being exhibited to have a minimum J-BAS of 6.
2. If an exhibitor has a J-BAS score of 7 or 8, they will NOT lose their score when exhibiting at a showground that is scored at a 6 as long as they use their own feed and water buckets and unused bedding/straw and animals are separately stalled.
3. A current Cattle Health Status Declaration, completed by exhibitor/exhibitor's agent, must accompany entry forms. Exhibitors' J-BAS is entered in Section 6 of this Declaration.

Show Day

1. Assessed and non-assessed cattle to be housed in separate buildings. If separate buildings not available a 2 to 3 metre space and a wall or such is positioned between assessed and non-assessed cattle in the one building. This separation should be capable of preventing traffic of stock, machinery, contaminated water, bedding, and feeding.
2. Cattle should be separate from eligible species (ie goats, alpacas & deer).
4. Animals should be individually fed and watered from above-ground facilities.
3. **NB: There are NO common watering facilities.**
5. Wash and tie-up rails for assessed and non-assessed cattle should be separated.
6. Calves to be tethered at all times.
7. Chief Steward and Stewards of the Cattle Section have full authority and control of rules in conjunction with the Minimum Risk requirements at the Show.
8. Entrants need to state where/which property the animals came from.

Pestivirus clearance declaration must clearly indicate animals tested and date.

Conditions

1. All stock will be judged from 9am on Saturday 25th November 2023.
2. Exhibitors are to supply their own bedding. All bedding must be removed before leaving the grounds.
3. Where there is no competition in any class the judges will use their discretion whether to award a prize.
4. Heifers must not have had a calf, unless specified.
5. All cattle must be thoroughly tractable.
6. All exhibits must be on the grounds no later than 8.30am on judging day.
7. The Committee shall take all reasonable care but will not be held responsible for any accident or loss that may occur.
8. Prize money or vouchers are subject to change without notice. All vouchers or product prizes are of equivalent monetary value. Prize monies or vouchers will be allocated to the Classes once confirmed entries and entry fees are received, at the discretion of the Chief Stewards.

Rules and Regulations

1. To comply with regulations set down by the relevant Dairy Breed Societies.

Section 18: The Sydney Royal AgShows Young Woman of the Year Competition

Chief Steward: Jade Taylor (0477 725 417)

The Dorrigo and Guy Fawkes Agricultural Show Society invites young women between the ages of 18 and 25 years (before 1 May 2024) to enter the Dorrigo Young Woman of the Year Competition, formally known as the showgirl competition. The Young Woman of the Year Competition seeks a young woman to represent Dorrigo and the Dorrigo Show. It is not a beauty pageant- the purpose of the competition is to identify ambassadors to promote Agricultural shows across New South Wales. The program is designed to develop regional young women, to benefit the individual, the local show society, and their communities. Each Entrant will be assessed on her general knowledge, confidence, personality, ambition, life goals and deportment.

This year's successful Entrant was announced in October and will have the opportunity to attend the Zone Final to be held in Tamworth in February 2024. If successful at Zone level, she will represent Dorrigo in the State Competition at the Sydney Royal Show in 2024. As part of the prize package, the Dorrigo Young Woman will receive a weekend long Personal Development Coaching Course, including travel and accommodation. This will be prior to the Zone judging and is invaluable in developing confidence in public speaking, deportment, social etiquette and personal presentation, among other skills. All Entrants receive a personal portfolio, a sash and a gift kindly sponsored by Dorrigo businesses, in appreciation of the Entrant's participation and desire to help continue a tradition that is over 50 years old.

This year the Dorrigo Show Society also invites young women aged 6-17 to participate in the Junior Showgirl Competition which will be run on the Saturday morning of the show, at approximately 10:30am near the show office. This will be a great opportunity for younger girls to build their confidence and get involved in the Dorrigo Show. Participants are invited to enter in the following categories:
6-10 years (mini), 11-14 years (junior), 15-17 years (teen)

NATIONAL CATTLE HEALTH DECLARATION EXPLANATORY NOTES

OVERVIEW

The Cattle Health Declaration is a legal document. Please complete accurately before signing. Cattle Health Declarations are a way for producers to provide information about the health status of the cattle they are selling. Buyers should ask vendors for a Declaration and use the information provided to determine the health risks associated with the animals offered for sale.

Some states require testing or certification in addition to that outlined in this document. e.g., Johne's disease (JD) in WA. Please check the entry requirements for any interstate movements at:

www.animalhealthaustralia.com.au/what-we-do/endemic-disease/livestock-movements/

The original is to be attached to the National Vendor Declaration (NVD) form accompanying the cattle, if applicable. A duplicate remains with the vendor; it is recommended the vendor retains a copy of this declaration for seven (7) years.

QUESTION 3: PESTIVIRUS TESTING

Persistently infected animals can be detected by conducting a pestivirus antigen test. This test only needs to be conducted once in an animal's life. Cattle that test positive in most cases are persistently infected animals. Pestivirus antibody testing may be done to check the pestivirus status of the herd. Contact your veterinarian for assistance in understanding the test results.

QUESTIONS 4 & 5 – ENZOOTIC BOVINE LEUCOSIS (EBL)

All cattle entering Tasmania must meet at least ONE of the following criteria:

- Cattle have been tested for EBL with the ELISA test within 42 days before shipment with negative results and evidence supplied via an attached laboratory report. If samples were pooled, no more than 10 sera or 30 milk samples were combined in each pool. Unweaned calves less than 12-weeks-of-age transported with their dam do not require testing for EBL; OR
- Dairy cattle from a registered dairy herd must be accredited as Monitored Negative (MN) or better, according to the national guidelines for EBL Control; OR
- Beef or beef-cross breeds must come from herds in Victoria, South Australia, Western Australia (excluding the cattle tick infected area), New South Wales (excluding the former North Coast Livestock Health and Pest Authority District), or Queensland (excluding the cattle tick infested area). The herd of origin must have been in existence for at least three (3) years with no evidence of EBL infection in the last three (3) years.

QUESTIONS 6, 7 & 8: JOHNE'S DISEASE BEEF CATTLE

Occurrence of JD refers to clinical disease in the herd or on the property. Clinical disease is an infected animal with chronic diarrhoea and weight-loss that does not respond to treatment.

The Johne's Beef Assurance Score (J-BAS) is a tool developed for JD risk profiling. Details are available on the Animal Health Australia website under 'JD in cattle'. The J-BAS is an initial guide and purchasers should ask for more information about JD in the origin herd (see JD in Cattle Biosecurity Checklist on the AHA website under 'JD in cattle'). Transitional arrangements are in place until 30 June 2017. The National Farm Biosecurity Reference Manual - Grazing Livestock Production provides a template to use for the property biosecurity plan. All plans should include the JD in Cattle Biosecurity Plan Checklist.

Check test – testing of 50 adult animals in the herd (or all eligible animals in a herd if less than 50 adult animals) biased to increase the probability of detecting infection, tested by ELISA, (pooled) faecal culture or (pooled) HT-J faecal PCR. Sample test - screening of the adult herd or a large representative sample of the adult herd by an approved test (ELISA, (pooled) faecal culture or (pooled) HT-J faecal PCR).

QUESTION 9: JOHNE'S DISEASE DAIRY CATTLE JD herd status information about Dairy Assurance Score calculation is available at

www.dairyaustralia.com.au/bjd

QUESTIONS 10 & 11: TREATMENTS & VACCINATIONS Provide details on any cattle treatments and vaccinations within the last six (6) months. Some manufacturers include more than one of the categories listed in the same vaccine, known as a combination vaccine. If you use a combination vaccine, each agent(s), as appropriate, should be detailed. For vaccinations to be current, you must have followed the manufacturer's recommendation for vaccination. Typically, young animals or first time vaccinated animals need two (2) doses, followed by annual boosters. As variations to this general rule do occur (e.g. Silirum is given once only), you must use the manufacturer's recommendations. At the date the declaration is made and as a result of the vaccination(s) given, the animals are considered protected from the diseases marked as treated.

DECLARATION This section must only be completed by the owner or person responsible for the husbandry of the cattle in the consignment.
